Asks Tag No. 13 For Dog That Has Nine Lives

KNOXVILLE, Tenn., May 2. (Sp.)—Dog tag No. 13 was sought by a Knox countyman at the office of Country Trustee Frank L. West. When asked for a reason he gave the following explanation: "Well, the damn dog is a nuisance. He's been run over a dozen times, poisoned an equal number of times and shot several times. Nothing seems to have any effect. He is worse than the proverbial cat with nine lives, and I thought that if I saddled him with that unlucky number something might happen he couldn't overthrow. If there wasn't any number 13 there wouldn't be any dog, but to please my wife, I'm getting him this number."

3,224 SLAIN BY MOBS IN 30 YEARS

Georgia Leads With Mississippi Second, Arkansas Sixth Tennessee Next.

NEW YORK, May 2.—In the last 30 years 3,224 persons have been put to death by mobs, according to a report made public today by the National Association for the Advancement of Colored People.

For the 30-year period from 1889 to 1918, the North has had 219 victims, the South 2,824, the West 156 and Alaska and other localities 15.

"Georgia leads in the list with 256 victims," says the report, "followed closely by Mississippi with 273 victims, Texas with 325, Louisiana with 312, Alabama with 274, Arkansas with 214, Tennessee with 196, Florida with 178 and Kentucky with 169.

"Fifty colored women and 11 white women were lynched in 14 states. Thirteen of the 14 states in which women fell victims to mobs were Southern states, Nebraska being the only state outside the South which lynched women. The North and West together have lynched 21 persons during the last five-year period, whereas during the same time 304 persons were lynched in the South."

Regarding President Wilson's appeal to state governors and other civil officers to prevent lynching, the report says:

"Despite President Wilson's earnest appeal, made under such extraordinary circumstances, lynchings continued during the remaining period of the war with unabated fury. Sixty-three negroes, five of them women, and four white men fell victims to mob ruthlessness during 1918, and in no case was any member of the mob convicted in any court, and in only two instances were trials held. In both of these instances the mob members were acquitted."

In conclusion the report says: "It is apparent that lynchings of negroes for other causes than the so-called 'one crime' have for the whole period been a large majority of all lynchings and that for the last five years less than one in five of the colored victims have been accused of rape or 'attacks upon women.'"

BRITON TO MAKE \$250 AUTOMOBILE

LONDON, May 2. (Correspondence of the Associated Press.)—An English manufacturing company announces that it is preparing to put on the market an automobile that can be retailed for \$250, certainly for not more than \$300.

Scarcely any wood will be used in the construction of the car, the principal material being a new substance which is described as a kind of concrete, light, but strong and durable, produced from waste material such as steel clinkers and sawdust and covered with a metal solution.

The process of manufacture is another matter. The engine, chassis, including wheels and chassis, will be stamped out, each complete in one piece and then the manufacturer expects to compete with cheap American cars because "tax and freight charges are expected to be reduced by the American article considerably above the figure asked from the United States buyers."
